

Baltic Leadership Program Bioeconomy – Youth

the Baltic Sea Region. The next module will be arranged in Vilnius in January 2019.

The Baltic Leadership Program is financed by the Swedish Institute. The Bioeconomy Youth modules have been developed in a cooperation between the Swedish Institute, The Nordic Council of Ministers office in Lithuania and the Policy Area Coordinators for Bioeconomy.

The first module of the Baltic Leadership Program Bioeconomy – Youth was arranged the 21-23:rd of November in Stockholm. A group of 30 participants representing all the EU member states in the Baltic Sea Region gathered during three days to start exploring the possibilities for the bioeconomy in the region. The participants youth from universities and youth organisations and experts from authorities, education and organisations working within the bioeconomy. The group has already identified several ideas and concepts for how to attract and involve youth in the transition to a bio based economy in
